For Immediate Release

## **Hunting Season has Begun: Check the Map and Wear Orange**

November 6, 2017, starts a week when deer hunting with a rifle is permitted for those with appropriate licences and tags in this part of Ontario. For those considering hunting on a Grey Sauble Conservation Authority (GSCA) property it is important to be aware of where this activity is not permitted.

“Please be aware that GSCA does not allow hunting on all of our properties. To see the properties where this activity is permitted go to [www.greysauble.on.ca](http://www.greysauble.on.ca). You can also purchase a copy of the map for \$10 at the Grey Sauble Administration office,” Tim Lanthier, Lands and Habitats Coordinator.

As not all GSCA properties permit hunting, and this activity may pose a safety issue to non-hunters, GSCA staff will be monitoring for permitted uses on its properties.

We suggest that you avoid hiking and other recreation activities in areas that permit hunting during the hunting seasons, particularly the deer rifle season during this first full week of November each year. If out, be aware and visible by wearing blaze orange clothes and hats. If backpacking, cover your pack in blaze orange. Ensure pets are kept on leash and wearing orange too during the fall season for their safety.

**Be seen, be safe.**
